Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Beer et al.

See the appropriate paragraph of the 11/10/05 final rejection for the teachings of Beer et al.

Oath/Declaration

Applicant's 9/28/06 37 CFR 1.132 Declaration has been considered but was not convincing. A convincing Declaration must be commensurate in scope with the claimed subject matter. Claim 1 paragraph (a) "preparing a feedstock membrane form a cellulose membrane casting solution by phase inversion in an evaporation process" has not been taught in the 9/28/06 Declaration. Additionally, claim 1 paragraph (b) "prior to drying removing filter dust impurities..." is claimed but the Declaration teaches removal of the dust by mechanical brushing while rinsing with water. The claims should be amended to recite the same process of removing the dust as set forth by the Declaration. This is essential, because the results demonstrate by the Declaration are only for the taught conditions and may not be valid for other methods of removing filter dust impurities.

Response to Arguments

Applicant's arguments filed 7/26/05 have been fully considered but they are not persuasive.

Applicant's state the 9/28/06 37 CFR 1.132 Declaration shows the unexpected results of the instant invention. The Office does not believe the Declaration is commensurate in scope with the pending claims and is not deemed convincing. See the above specific remarks.
